Experiences

AIDEVGEN Software Solutions

[Nov 2025 - present]

Full Stack Developer (MERN Stack)

- **AI-Powered Product Development:** Built AI-driven mobile and web products including voice note-taking apps, automotive maintenance assistants, and business-automation SaaS — integrating Groq AI, Google Gemini, and OpenAI LLM APIs.
- **Full-Stack Dashboard Development:** Engineered admin panels with user management and analytics, significantly improving UI/UX across order and navigation modules.
- **Mobile App Stabilization:** Developed, maintained, and deployed React Native (Expo) apps, resolving critical crashes and optimizing authentication and keyboard-handling flows.
- **API & UI Optimization:** Integrated REST APIs with optimistic updates to prevent errors and implemented complex UI features like searchable dropdowns, scanning modals, and real-time transcription.

Software Solutions

[June 2023 – July 2024]

Full Stack Developer

- **Business-Driven Development:** focused on writing efficient code that aligns with business goals rather than over-engineering.
- **Practical Web Solutions:** experienced in building responsive, functional web apps from scratch that solve real user problems — live voting systems, academic analytics platforms, and recruitment portals.
- **Applied AI Integration:** skilled at bridging the gap between raw Machine Learning models and usable web interfaces.

AIOBC Software Solutions

[June 2022 - Dec 2022]

Full Stack Developer (MERN Stack)

- **Full-Stack Development:** Modernized static HTML sites into dynamic, responsive React applications based on custom Figma designs.
- **Design & Documentation:** Authored comprehensive project manuals and UI/UX prototypes in Figma to optimize team workflows.
- **Data Engineering:** Executed web scraping, filtering, and annotation using Python to improve dataset accuracy for machine learning models.
